Be your own Director in easy steps.

## 3 InterVideo WinDVD Creator 2

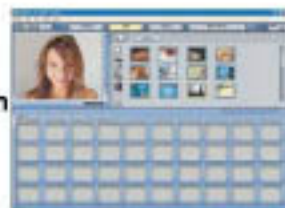

### Step I Capture your memories

To capture your precious memories, simply hook up your camcorder to your PC and the easy-to-use interface will guide you through the rest of the process. There will be thumbnails of each captured scene. You can record video directly from the camera to a disc if you choose not to edit.

### Step II Edit your story

Now, you are on your way to be your own director, simply jazz up your recorded scenes with transition, titles, background music, and other video effects available in the library.

### Step III Inspire your audience

Once your production is completed you are ready to inspire your audience by sharing with them in VCD, SVCD, or DVD. You can also play your movies back on your PC, email to your loved ones or publish it in the web.
